Summary

Highly motivated and enthusiastic software engineer with a strong foundation in front-end and back-end development. Proven ability to work independently and as part of a team to deliver high-quality products. A quick learner with a strong work ethic and a commitment to excellence

Work Experience

Full Stack Developer, XenioCode Technologies

04/2024 – present | Hyderabad, India

Client: Radiant Logic - Identity and Access Management Solutions

Project: EOC -Environment Operations Center - Easy-to-use interface for managing, configuring, and monitoring multiple environments and on-prem agents. Offers creation, deletion, backup, and restore capabilities as well as advanced system monitoring, reporting, and administration.

Roles and Responsibilities:

- Led the development of key components across the EOC platform, including frontend, backend, and orchestrator, ensuring a seamless user experience for managing, configuring, and monitoring environments.
- Designed and implemented user-friendly interfaces using modern web frameworks, ensuring a focus on usability and responsiveness.
- Assisted the QA team in automating test cases for various components, improving the reliability and efficiency of testing processes.
- Worked closely with other teams to integrate external services, enhancing the platform's capabilities and extending functionality.

Full Stack Developer, Infosys

08/2021 – 04/2024 | Hyderabad, India

Client: Northwestern Mutual - Financial services company

Project: ICS - Investment Compensation System - Responsible for transaction validation, compensation calculation, and distribution across hierarchical management tiers, ensuring accurate remuneration allocation.

Roles and Responsibilities:

- Implemented scalable back-end solutions using Node.js and Spring Boot, enhancing system reliability and performance.
- Developed responsive user interfaces with React.js, delivering an intuitive and engaging user experience.
- Migrated a critical Java application to React and Node.js, significantly improving performance and functionality.
- Achieved over 90% code coverage through rigorous testing using tools such as Jest, Supertest, and React Testing Library.

- Collaborated with cross-functional teams and business stakeholders, ensuring alignment on project objectives and requirements.
- Participated actively in Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives, fostering a collaborative and efficient project environment.
- Demonstrated expertise in all phases of the SDLC, applying Agile methodologies for streamlined execution.

Education

Bachelor of Technology, *SASTRA Deemed University*

07/2017 – 06/2021 | Thanjavur, India

Electronics and Communication Engineering

CGPA : 8.83/10

Technical Skills

- Languages: Java, JavaScript, TypeScript, SQL, HTML, CSS
- Frameworks and Libraries: ReactJS, Redux, Zustand, ExpressJS, NestJS, Jest, Spring Boot, Hibernate, Selenium
- Databases: IBM Db2, PostgreSQL, MongoDB
- DevOps: Docker, Kubernetes, GitLab CI/CD, ArgoCD
- Cloud Computing: AWS
- Version Control: Git, GitLab, GitHub
- Tools: Maven, npm, Postman, SonarQube
- IDEs: Visual Studio Code, Eclipse, IntelliJ

Certifications

- AWS Certified Developer - Associate
